FIRST 4.0
ON THE GO
Flexography
Regional
Training

Hosted by the Fullerton College Printing Technology program and the Foundation of Flexographic Technical Association (FFTA)

This workshop takes a new approach to an old flexo favorite. Attendees will gain a solid understanding of the fundamental principles and best practices of the flexographic print process.

Learn:
- How First 4.0 will enable you to be your best in terms of productivity and profitability
- How to optimize your plate making, ink metering systems and inks and substrates
- How to tackle fingerprinting for line work, halftone work and process color
- and more....

Register online at:
www.flexography.org
$95 for FFTA member
$195 for non-member
